AMENDMENT

IN THE CLAIMS:

Claims 10, 15 and 22 have been amended and new claims 23 and 24 have been added.

10. (AMENDED) A motor vehicle door comprising:

an interior sheet metal;

an exterior sheeting;

a hollow interior space formed between said exterior sheeting and said interior sheet metal;

an opening in said interior sheet metal;

B<sup>1</sup> a carrier module that closes said opening and carries at least one functional part of said motor vehicle door, said carrier module including a base plate which closes said opening of said interior sheet metal from a side of said hollow interior space of said door; and

an access opening sized large enough to allow entry of said carrier module into said interior space of said door.

B<sup>2</sup> 15. (AMENDED) The motor vehicle door as recited in claim 10 wherein said carrier module carries a window lifting arrangement including a pair of guide rails which are rigidly connected for a window pane which is lifted and lowered.

22. (AMENDED) A motor vehicle door comprising:

an interior sheet metal;

an exterior sheeting;

a hollow interior space formed between said exterior sheeting and said interior sheet metal;

an opening in said interior sheet metal;

B<sup>3</sup> a carrier module that closes said opening and carries a window lifting arrangement, said window lifting arrangement including a pair of rigidly connected guide rails for a window pane which is lifted and lowered, said carrier module further including a base plate which closes said opening from a side of said hollow interior space of said door; and

an access opening sized to allow entry of said carrier module into said interior space of said door.
